

Home Ice Cream products do not contain any animal fat (i.e. Lard, dripping, edible tallow, etc.). The fat in our ice creams comes from milk fat. The Emulsifiers (407, 410, 412, 460 and 471) are from vegetable origins.

Gelatine is found **only** in the **Hokey Pokey Duo Cones, Cotton Candy Ball Top Cone,** and **Honeycomb El Dorado.**

The **Apple Pie** contains margarine made from **animal** and vegetable **fats.**

No Eggs are used in our ingredients. However the **“Traces of Egg”** warning is found on some products, as they may have come in contact with ingredients, which were made on a machine used to make other products containing eggs (e.g. the oven / conveyor used to bake biscuits).

Product Containing **Cochineal**
